

Quiz - Buddy Up for Confined Space Safety

1. Confined spaces are not only hazardous to workers occupying them, but frequently also to people who attempt rescues.
 True False
2. You must have at least one _____ watching a worker or workers in a confined space in case something goes wrong.
3. What should an authorized attendant do he or she observes an entrant is in trouble?

4. Confined spaces and people working inside them need constant monitoring for changes in conditions.
 True False

What Would You Do?

You are the authorized attendant outside a confined space and in the past half hour while you've been monitoring conditions, nothing dangerous has cropped up. You desperately need to go to the bathroom and no one else is around to watch the workers in the tank below. You inform the entrants of your predicament and they tell you it is okay to leave for a couple of minutes. What would you do?
