## Open Author Menu

In the Global Navigation menu, click the **Author** icon. Then, click the **Courses** menu option.

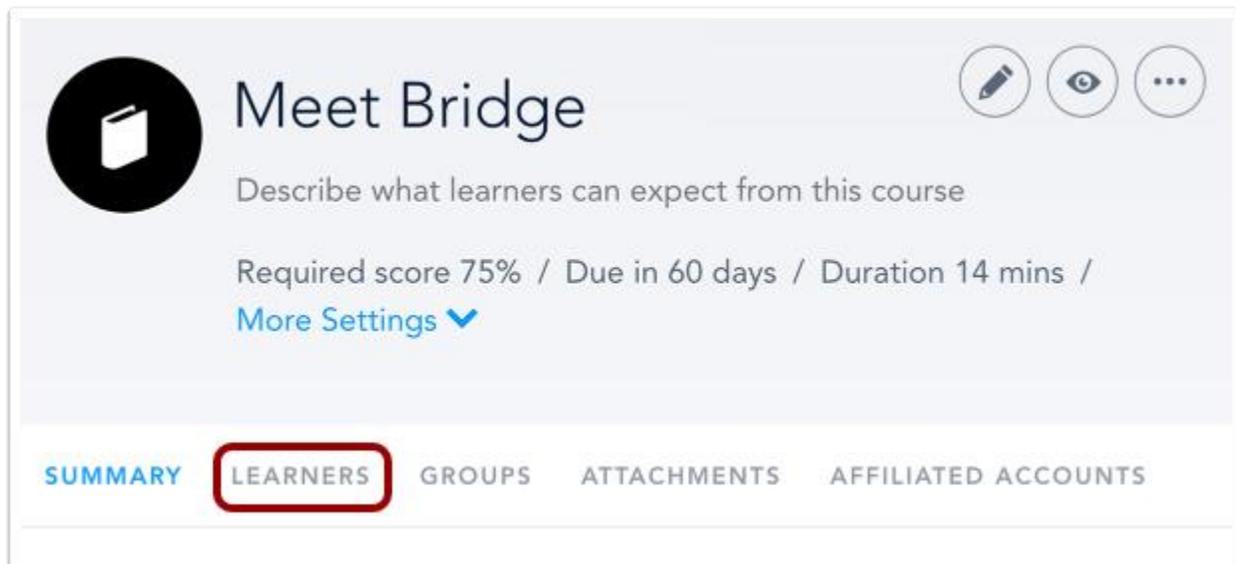

**Note:** The Global Navigation menu may differ depending on what is enabled in your account.

## Open Course

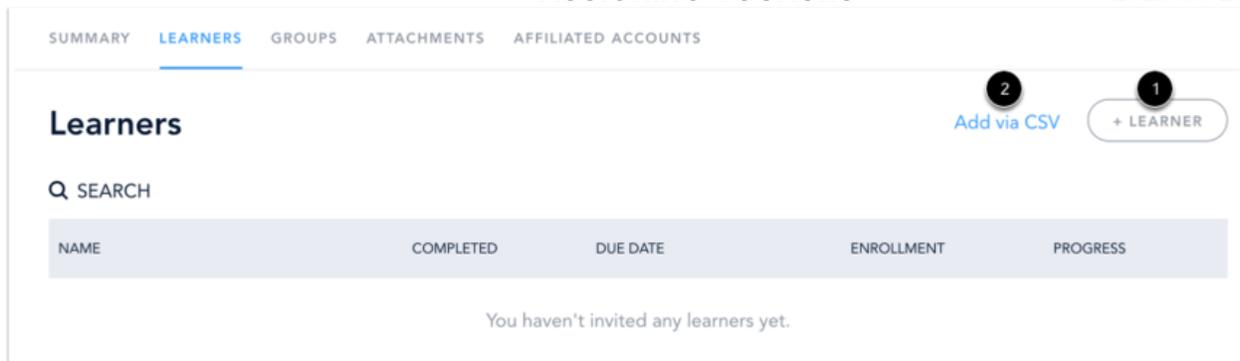

In the Courses page, click the name of a course.

## Open Users

In the course details page, click the **Learners** tab.

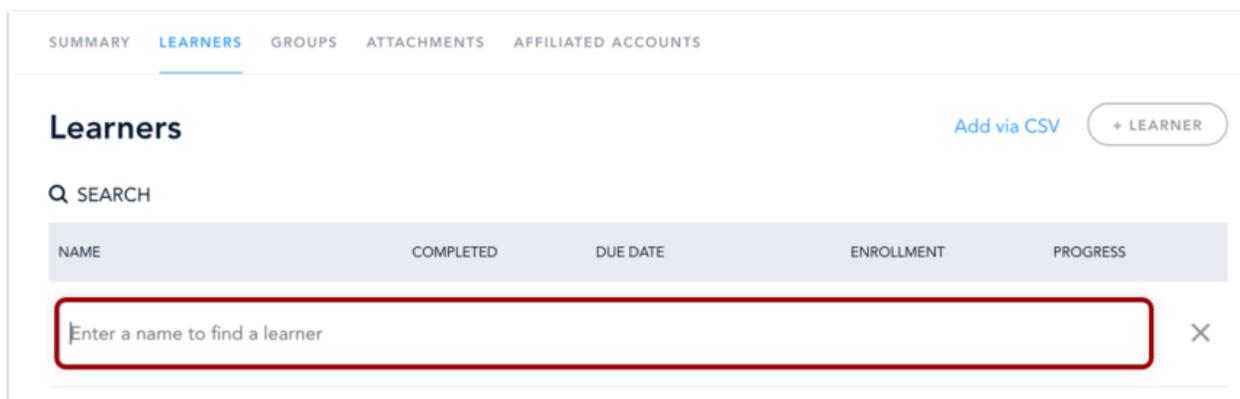

## Add User

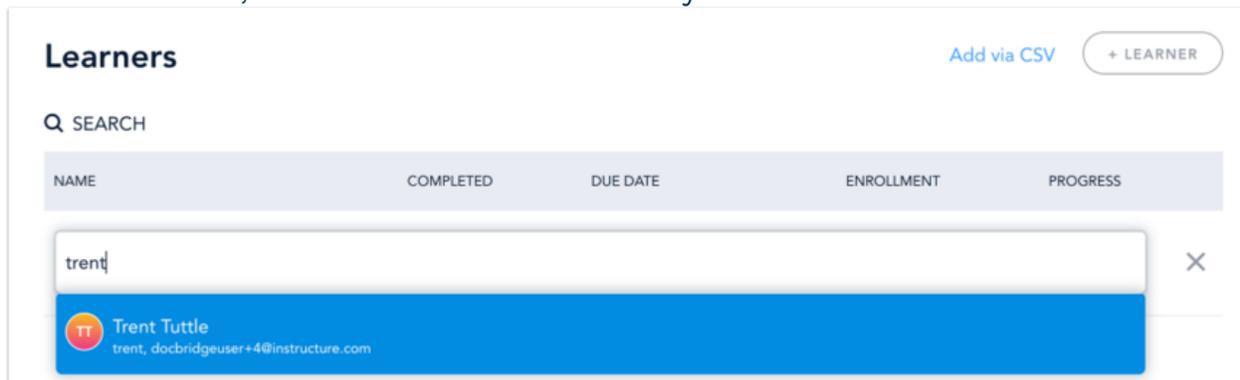

Click the **Add Learner** button [1]. To add multiple users via CSV file, click the **Add via CSV** link [2].

**Note:** If your course is published, adding users to your course immediately sends a course email invitation to all users.

## Find User

In the text field, enter the name of a user in your account.

Click the name when it appears.

**Note:** You will be notified if a user is already enrolled in the course through a program. If the user has not yet reached the course in the program, you can

choose to enroll the user immediately and the course will appear in the user's My Learning page.
